MAKING THE TEXT LARGER

AUDIO AND VIDEOS

Audio Course

You can listen to the course or read it. The choice is yours. Just press the green play button that appears on the right side of your screen and the course will be read as the text is highlighted.

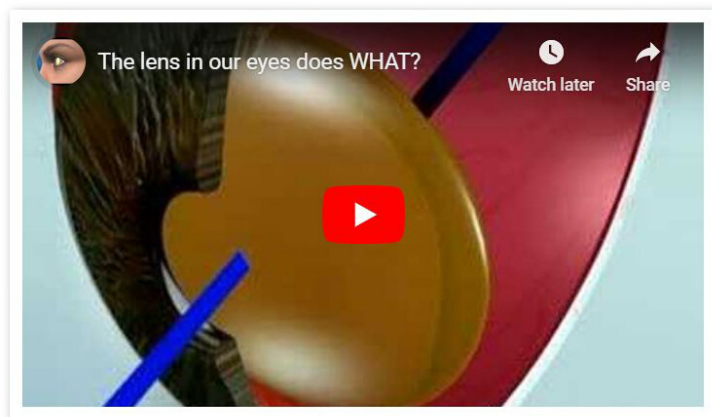

As we get older, changes may impact our vision making driving more difficult. These changes may not necessarily lead to significant loss of vision or blindness, but they can lead to dangerous situations behind the wheel.

Pressing the circular arrow button will re-wind playback to the beginning of the section.

If you do not hear sound, please make certain that your speakers are on and your volume is turned up!

Videos

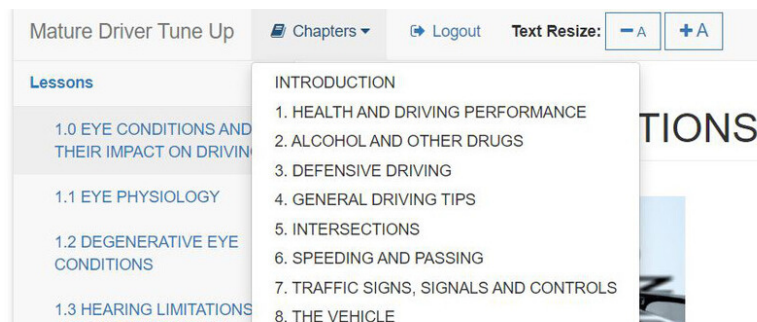

To watch the course videos, simply click on them. The video will start to play and you can pause, fast forward or rewind using the controls.

CHAPTER NAVIGATION

If you want to go back and review a lesson you already finished, just click the lesson in the left navigation menu.

If the lesson you're looking for is in a different chapter, click on the **'Chapters'** tab at the top of the page to find the chapter you want and click on it.

You will only see chapters that you have already completed in the pulldown list.

SELF-PACED COURSE

The course is 100% self-paced which means you can stop and start as many times as you'd like. Your progress is automatically saved and you continue the course where you left off.

There's no deadline by which you must complete the course. Take it in one sitting or in bite-sized pieces. When you finish is entirely up to your schedule.
